Independent Accountants' Report on Financial Statements and Supplementary Information

The Commissioners of the Arkansas Natural
Resources Commission (ANRC)

The Board of Directors of
Arkansas Development Finance Authority (ADFA)

We have audited the accompanying basic financial statements of the State of Arkansas Safe Drinking Water Revolving Loan Fund Program (the Program) as of and for the years ended June 30, 2011 and 2010, as listed in the table of contents. These financial statements are the responsibility of the Program's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in *Note 1*, the financial statements of the Program are intended to present the financial position, and the results of its operations and cash flows, where applicable, of only that portion of the business-type activities of the State of Arkansas (the State) that is attributable to the transactions of the Program. They do not purport to, and do not, present fairly the financial position of the State as of June 30, 2011 and 2010, and the changes in its financial position and its cash flows, where applicable, for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Program as of June 30, 2011 and 2010, and its changes in financial position and cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying management's discussion and analysis is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming an opinion on Program's basic financial statements. The accompanying supplementary information, as listed in the table of contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis
June 30, 2011 and 2010**

This discussion and analysis is designed to assist the reader in focusing on significant issues and activities and to identify any significant changes in the financial position of the Safe Drinking Water Revolving Loan Fund Program (the Program). Readers are encouraged to consider the information presented in conjunction with the financial statements and notes as a whole, which follow this section of the report.

Discussion of Financial Statements

The June 30, 2011, basic financial statements include three required statements: the statement of net assets; the statement of revenues, expenses and changes in net assets; and the statement of cash flows. Comparative totals as of and for the years ended June 30, 2010 and 2009, are also presented. Although not required, these comparative totals are intended to facilitate an enhanced understanding of the Program's financial position and results of operations for the current fiscal year in comparison to the prior fiscal years. Additional information, following the *Notes to Financial Statements*, includes the combining statement of net assets; the combining statement of revenues, expenses and changes in net assets; as well as the combining statement of cash flows. These combining statements detail the Revolving Loan Fund, the Fees and Expense Set Aside, the Small System Technical Assistance Set Aside, the Well Head Protection Set Aside, the Capacity Development Set Aside and the State Program Management Set Aside, which comprise the Program.

Total net assets – restricted for program requirements	\$ <u>159,107</u>	\$ <u>136,143</u>	\$ <u>119,128</u>

The Program's total assets have continually increased over the past three years, primarily attributed to growth in the Program's loans for water system projects. Loans receivable – restricted increased to \$135.6 million at June 30, 2011, from \$112.0 million and \$99.8 million at June 30, 2010 and 2009, respectively.

Net increase in loans receivable	<u>\$ 23,583</u>	<u>\$ 12,293</u>	<u>\$ 11,679</u>

Grants from the United States Environmental Protection Agency (EPA) comprised 57%, 77%, and 76% of the funding source of the loan disbursements for fiscal years ended June 30, 2011, 2010, and 2009, respectively. The Program received federal funds in the form of a Base annual grant and an American Recovery and Reinvestment Act (ARRA) grant. The table below reflects the amounts used from each funding source for fiscal years 2011, 2010 and 2009 as follows (in thousands):

	2011	2010	2009
EPA Federal			
Base	\$ 10,945	\$ 3,941	\$ 10,850

	<u>\$ 27,128</u>	<u>\$ 14,992</u>	<u>\$ 14,273</u>

The construction period for the loans of the Program is approximately two years.

The Program maintains liquidity for funding loans. In fiscal year 2011, the Program invested excess funds in U. S. Treasury obligations with six month maturities and in money market mutual funds from time to time as well, to allow for re-evaluation of the Program's liquidity needs. At June 30, 2011, the Program's current liabilities increased \$36,000 from June 30, 2010, and \$65,000 from June 30, 2009, to June 30, 2010. The fluctuations are attributed to the Program's administration fee payables to the Department of Health (DOH) and the Arkansas Development Finance Authority (ADFA). The amounts due to DOH were \$280,000, \$260,000 and \$204,000 at June 30, 2011, 2010 and 2009, respectively, which is reimbursed directly from the EPA Base federal grant. ADFA receives an annual administrative fee which is based on a percentage of the fiscal year end outstanding loan balance. The amounts due to ADFA were \$113,000, \$95,000 and \$87,000 for year ended June 30, 2011, 2010 and 2009, respectively.

Noncurrent liabilities reflect decreases of \$165,000 for each of the past two years which represents the amortization of a 3% loan-closing fee, which the Arkansas Natural Resources Commission (ANRC) discontinued in March 2009.

End of year	<u>\$ 159,107</u>	<u>\$ 136,143</u>	<u>\$ 119,128</u>

Included in total interest income is interest earned on loans, which has increased to \$2.6 million for the year ended June 30, 2011, from \$2.4 million for the year ended June 30, 2010, and \$2.2 million for the year ended June 30, 2009. The attributing factor to the increase is the continuous funding of loans at a faster pace than repayments in the Program. Revenues from investments remained constant in the current year, attributable to the continuously low money market interest rates over the past year. The average returns on cash, cash equivalents and investments for fiscal years 2011, 2010 and 2009 were 0.1%, 0.1% and 0.6%, respectively.

Administrative expenses decreased during fiscal year 2011 primarily due to the Program expensing \$5.9 million for the year ended June 30, 2011 in principal forgiveness loans which were funded only with ARRA federal funds as compared to expensing \$6.2 million for the year ended June 30, 2010.

The change in net assets of \$23.0 million for the year ended June 30, 2011, increased \$5.9 million in comparison to the fiscal year ended June 30, 2010. The increase in the change in net assets is primarily attributable to the increase of \$3.5 million in federal grants received and the net increase in transfers in and out of \$1.6 million.

**State of Arkansas Safe Drinking Water
Revolving Loan Fund Program
Management's Discussion and Analysis
June 30, 2011 and 2010**

The Program primarily uses the federal grants for funding loans and paying expenses. These funds are drawn down from the federal government as expenses are incurred by the municipalities, ANRC or DOH.

The Program received transfers in from the ANRC Water, Waste Disposal and Pollution Abatement Facilities General Obligation Bond Fund Program, which represented a portion of the state matching funds for the Program. The Program has received transfers of \$3.6 million, \$2.0 million and \$1.8 million for fiscal years 2011, 2010 and 2009, respectively. Transfers in are offset by transfers out to other agencies for the reimbursement of expenses relating to the administration of the Program. The transfers out are represented in the following table (in thousands):

	2011	2010	2009
Department of Health	\$ 2,709	\$ 2,788	\$ 2,035
Arkansas Natural Resources Commission	520	520	650

The overall financial position and results of operations of the Program have improved.

State of Arkansas Safe Drinking Water Revolving Loan Fund Program

Notes to Financial Statements

June 30, 2011 and 2010

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations and Reporting Entity

Act 772 of 1997, as amended, (the Act) authorized the establishment of a fund known as the Safe Drinking Water Fund (the Program), an enterprise fund of the State of Arkansas, to be maintained and administrated by the Arkansas Natural Resources Commission (the Commission or ANRC), formerly known as Arkansas Soil and Water Conservation Commission, and the Arkansas Department of Health. Act 1243 of 2006 authorized the name change to ANRC, which has not had an impact on the Program. The Program is to be capitalized with federal grants, state matching grants, other grants, proceeds of bonds issued by the Arkansas Development Finance Authority (ADFA) or the Commission for the Program and loan repayments utilized to administer the program. These funds may be loaned for water system projects, pledged and used to pay debt service and related costs, used to pay administrative expenses and provide technical assistance for the Program, and used for other purposes related to the program.

ADFA serves as financial manager for the Program under an interagency agreement. ADFA is responsible for investing and disbursing funds as authorized by the lead agency, servicing loans, preparing and submitting monthly financial reports and annual financial statements and procuring audit services. ADFA is reimbursed for Program administration costs through a calculation based on loans outstanding in accordance with the interagency agreement. The amounts incurred to ADFA for administration costs for the years ended June 30, 2011 and 2010, were \$113,000 and \$95,000, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change relate to the determination of fair values of investments.

State of Arkansas Safe Drinking Water Revolving Loan Fund Program

Notes to Financial Statements

June 30, 2011 and 2010

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The Program is accounted for as an enterprise fund for financial reporting purposes and utilizes the economic resource measurement focus and accrual basis of accounting wherein revenues are recognized when earned and expenses when incurred.

Operating revenues and expenses are distinguished from nonoperating items in the Program's statement of revenues, expenses and changes in net assets. Operating revenues and expenses generally result from providing services in connection with the principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating items.

Pursuant to Governmental Accounting Standards Board (GASB) Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, the Program has elected not to apply the provisions of all relevant pronouncements of the Financial Accounting Standards Board (FASB) issued after November 30, 1989.

Cash and Cash Equivalents

The Program considers all liquid investments with original maturities of three months or less to be cash equivalents. At June 30, 2011 and 2010, cash equivalents of approximately \$25.9 million and \$22.9 million, respectively, consisted of money market mutual funds with variable interest rates. The maturity of the funds is considered to be less than one year because they are redeemable in full immediately.

Investments

Investments are carried at fair value. Fair value is determined using quoted market prices.

Loan Receivables

The Program originates loans with Arkansas municipalities for financing the construction of drinking water treatment facilities. These loans are payable in semi-annual installments. At June 30, 2011 and 2010, such loans had a carrying value of approximately \$135.6 million and \$112.0 million, respectively. The loans bear interest at 0.0% to 2.90%, and are collateralized by special assessments, by user charges or by sales and use tax bonds issued by the municipalities.

In fiscal year 2010, the Program began funding loans with American Recovery and Reinvestment Act (ARRA) federal funds. As of June 30, 2011 and 2010, the Program had funded \$12.2 million and \$7.6 million, respectively, in ARRA loans.

Through the years ended June 30, 2011 and 2010, approximately \$179.8 million and \$161.6 million in loans, respectively, had cumulatively been approved for funding. At June 30, 2011 and 2010, approximately \$29.7 million and \$36.2 million, respectively, remained encumbered and awaiting disbursement to loan recipients.

Net Assets Restricted for Program Requirements

Represents funds restricted due to the specific provisions of the Program.

Income Taxes

As an essential government function of the State of Arkansas, the Program is exempt from income taxes under Section 115 of the Internal Revenue Code and a similar provision of state law.

Note 2: Deposits and Investments

Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Program's deposits may not be returned to it. The Program's deposit policy for custodial credit risk requires compliance with the provisions of state law.

At June 30, 2011 and 2010, none of the Program's deposits were exposed to custodial credit risk.

Investments

Arkansas statutes authorize the Program to invest in direct obligations of the U.S. Government; obligations on which the principal and interest are fully guaranteed, or are fully secured, insured or covered by commitments or agreements to purchase by the U.S. government; obligations of agencies and instrumentalities created by act of the United States Congress and authorized thereby to issue securities or evidence of indebtedness, regardless of guarantee of repayment by the U.S. government; obligations of political subdivisions of the United States; certain obligations issued by the State Board of Education; short-term warrants of political subdivisions of the State of Arkansas and municipalities; the sale of federal funds with a maturity of not more than one business day; demand, savings or time deposits fully insured by a federal deposit insurance agency; repurchase agreements that are fully insured by obligations of the U.S. government, any U.S. state or any political subdivision thereof; securities of, or other interest in, any open-end type investment company or investment trust registered under the Investment Company Act of 1940, and which is considered a money market fund, provided that the portfolio is limited principally to U.S. government obligations and the investment company or trust takes delivery of collateral either directly or through an authorized custodian; guaranteed investment contracts; and bank certificates of deposit.

State of Arkansas Safe Drinking Water Revolving Loan Fund Program

Notes to Financial Statements June 30, 2011 and 2010

At June 30, 2011 and 2010, the Program had the following investments and maturities:

(In thousands)

Type	June 30, 2011				
	Fair Value	Maturities in Years			
		Less than 1	1–5	6–10	More than 10
Money market mutual funds	\$ 25,944	\$ 25,944	\$ 0	\$ 0	\$ 0

	<u>\$ 26,938</u>	<u>\$ 25,937</u>	<u>\$ 1,001</u>	<u>\$ 0</u>	<u>\$ 0</u>

Interest Rate Risk – As a means of limiting its exposure to fair value losses due to rising interest rates, the Program limits the maturity of investments to expected cash flow needs of the Program.

Credit Risk – Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. The Program’s investments in U.S. agencies obligations not directly guaranteed by the U.S. government were rated “AAA” by Standard & Poor’s and “Aaa” by Moody’s Investment Service, when owned, and its investments in money market mutual funds, or the investments of those funds were rated “AAAm” or “AAA” by Standard & Poor’s and “Aaa” by Moody’s Investors Service.

Notes to Financial Statements

June 30, 2011 and 2010

Concentration of Credit Risk – The Program places no limit on the amount that may be invested in any one issuer. Currently, the Program does not have any investments (not guaranteed by the U.S. government or considered mutual funds) representing 5% or more of total investments.

Summary of Carrying Values

The carrying values of deposits and investments shown are included in the statements of net assets as follows:

Note 3: Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. Those matters include the following:

Economic Dependency

The Program is economically dependent upon revenue from the Environmental Protection Agency. During 2011 and 2010, the Program received approximately 86% and 85%, respectively, of total revenue in the form of federal grants. During fiscal year 2011 and 2010, respectively, the Program disbursed \$10.5 million and \$13.9 million in ARRA federal funds.

The Program recognizes that the goal of the ARRA grants is to expeditiously fund eligible projects that simultaneously will create jobs, promote economic recovery, and generate long term benefits from infrastructure investment. The ARRA guidelines require that not less than 50% of assistance provided be additional subsidies in the form of principal forgiveness loans. ARRA also requires that, to the extent there are sufficient eligible project applications, not less than 20% of the funds be used for a Green Project Reserve. Projects must be one of the following: water or energy efficient, green infrastructure, or other environmentally innovative activities. The Program has \$125,000 to be disbursed in future fiscal years.

State of Arkansas Safe Drinking Water Revolving Loan Fund Program

Notes to Financial Statements

June 30, 2011 and 2010

Program Set Asides

As shown in the supplemental information, the Program has five set aside funds. These set aside funds make up 31% of the annual capitalization grant awarded each year. These funds are used to provide for reimbursement of expenses of the Program. Section 1452 of the EPA Federal Guidelines for the Implementation of Drinking Water State Revolving Loan Fund indicates a State may reserve the right to redirect unused set-aside funds as eligible expenditures of the Program. Since the inception of the Program, ANRC, in conjunction with DOH, has redirected approximately \$5.9 million from previous years' capitalization grants as eligible funds for disbursement to loan borrowers.

Contingency

The Program is capitalized by state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustments by the grantor agencies; therefore, to the extent that the Program has not complied with the rules and regulations governing the grants, refunds of any money received may be required, and the collectability of any related receivable at June 30, 2011 and 2010, may be impaired. In the opinion of the management of the Program, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such a contingency.
